# I.M.A.C

*Integrated Management Access Control*

## INSTALLATION & BENEFITS

- Programmed Fobs and Zappers
- Match code to resident
- Match fee's to resident
- Turn off Fobs and Zappers
- Collect Fee's
- Turn on Fobs and Zappers

### Wireless

- Our engineers will provide and install all equipment
- Once the system is installed we guide you through the software
- Proximity keys are coded and entered into the software database matching to your resident list

## Management

- Now you have simple online control of each residents access facilities
- Remember you can control main apartment doors, bin storage areas and parking areas
- We provide all the basic software training
- Non-payment of fee's results in de-activation of fobs/zappers
- On resumption of payment fobs/zappers can simply be re-activated

## Solution

- Using this system promotes direct communication, leading to a better working relationship between management companies and residents
- A single fob/zapper can be programmed to provide access for all management and maintenance staff in multiple developments
- Lost, stolen or redundant fobs/zappers can easily be de-activated
